Education

Kalinga Institute of Industrial Technology , B.Tech in Computer Science and Engineering	July 2023 – Present
• CGPA: 8.56/10.00	
Modern Vidya Niketan School , CBSE(XII)	April 2022 – May 2023
• 93%	
Modern Vidya Niketan , CBSE(X)	April 2020 – Aug 2021
• 96%	

Experience

AI Engineer Intern ,Indus Towers Ltd. ,Gurgaon	January 2026
- Engineered Agentic AI solutions to automate telecom tower operations, enabling intelligent task execution and workflow management. - Researched and applied Model Context Protocol (MCP) to improve communication between AI agents, external tools, and APIs. - Built automation workflows using Python, and N8N, integrating APIs and implementing prompt engineering to orchestrate LLM-driven processes.	

Projects

Voyage-AI	April 2026
- Developed an AI-powered tourism platform for Nagaland serving real-time itinerary generation with 90% route optimization accuracy to plan efficient multi-destination travel routes. - Built a RAG based AI chatbot handling 50+ user queries/day with 85% response relevance accuracy to provide real-time travel assistance, recommendations. - Designed a full-stack web application with features including a community discussion module, dynamic destination pages, and an e-commerce shopping section, integrating APIs to enhance user engagement.	
BurgerCart	June 2025
- Designed a full-stack MERN e-commerce application with 3+ core modules(menu browsing, cart management, custom orders, and real-time order tracking). - Built an admin dashboard managing 30+ products, users, and menu items with secure backend APIs. - Implemented the system using React.js, Node.js, Express.js, and MongoDB with RESTful API integration.	
District Query System with LLM Augmentation	November 2024
- Built an LLM-powered query system that retrieves and organizes district-level data from APIs. - Implemented FAISS vector search indexing to enable efficient semantic retrieval of relevant information. - Integrated a Groq LLM-based AI chatbot to enhance query responses and provide contextual insights.	

Skills

Languages: C, Java, Python ,Javascript

Web Development: React ,Node.js ,Express.js , Angular ,Bootstrap ,MongoDB

Technologies: Github ,SQL ,Figma ,RESTful API's,LLM's,Pandas ,NumPy ,Matplotlib ,Pytorch

Concepts: OS ,DBMS ,CN ,OOP ,DSA

Achievements

- Earned certifications in Oracle Cloud Infrastructure (OCI) Generative AI Professional, MERN Full Stack Development, Frontend Development, and Business Ethics Corporate Governance.
- Winner in Hackocalypse (Microsoft Learn Student Ambassador Hackathon) among 50+ teams.
